

Job Description

Job Title:	AC Installer
Company:	Geo Comfort Cayman Ltd T/A GeoCayman
Reports to (position title):	HVAC Supervisor
Salary Range:	CI\$15.00 - \$27.00 per hour
Position Type:	Full-Time
Prepared/revised (date):	October 2025
Send Resumes to:	tgrant@tapsgroup.ky

Job Purpose

The **AC Installer** is primarily responsible for the professional and safe installation of new ventilation, and air conditioning systems in both residential and commercial properties. This role demands precision, a high commitment to safety, and a focus on efficient project completion.

Role and Responsibilities

- Perform all aspects of new HVAC system installation, including setting units, installing split systems, fabricating ductwork, brazing refrigerant lines, and connecting necessary electrical components.
- Accurately read and interpret blueprints, schematics, and installation specifications to ensure systems are installed correctly and to code.
- Prepare job sites, including mounting brackets, setting pads, and cutting/drilling access holes for lines and vents.
- Start up and test newly installed systems to confirm proper operation, correct airflow, and optimal performance before handover.
- Interact professionally with clients on-site, providing clear updates and explaining the installation process as needed.
- Adhere strictly to all company safety protocols and local building codes for every installation project.
- Maintain all company tools, equipment, and vehicles. Load and unload materials and ensure the job site is clean upon completion.

- Accurately track time and materials for all installations, ensuring work is completed efficiently within the scheduled timeline.

Qualifications, Education and Experience Requirements

- Minimum of 3-5 years of hands-on HVAC installation experience.
- Proven ability to handle, run, and braze refrigerant lines, manage ductwork, and correctly wire units.
- Must possess a valid Cayman Islands driver's license or obtain one within 30 days of employment.
- Ability to safely lift heavy equipment, climb ladders, and work in various weather conditions and small spaces (e.g., attics, crawlspaces).
- Detail-oriented, reliable, and possess strong communication skills.
- Recognized Qualification from an accredited organization.
